3. The second running of the High Risk of Capture briefing was completed on 8 October with thirty-five students attending. Student reaction to the program was good. For the next few runnings we will continue to experiment in terms of content coverage and timing. We expect to include regular participation by the Central Cover Staff, CS.

4. Because of the high degree of interest expressed by Agency employees to the forthcoming BNDD two-day presentation on drugs, we have queried BNDD as to their willingness to repeat the program and they have agreed to do so. No dates were fixed but we anticipate another session for mid-winter.
